Unit 2, Day 15

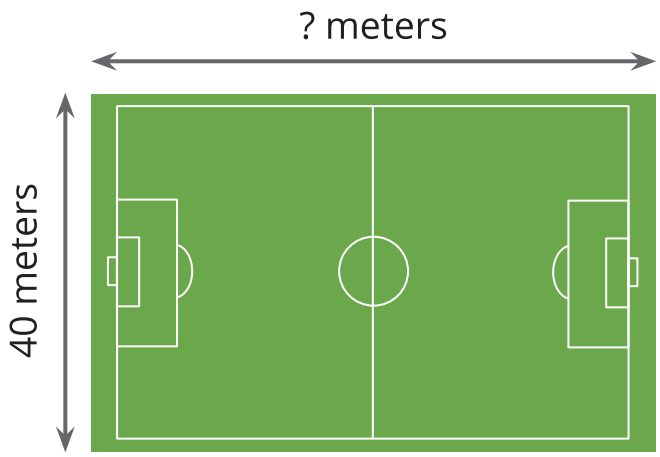

Equal-Size Groups and Area

Let's divide to solve problems about equal groups and area.

Warm-up

Estimation Exploration: Area of a Soccer Field

Estimate: What is the length of the soccer field in meters?

area: 2,280 square meters

Record an estimate that is:

too low	about right	too high

Activity 1

Paletas for a Class Party

Diego's aunt buys paletas, which are ice pops, for a class party. At the local market, paletas come in different flavors. She buys the same number of paletas of each flavor.

1. What mathematical questions can we ask about this situation?

2. Here is an equation: $84 \div 7 = ?$

   In the situation about the class party, what questions could the equation represent?

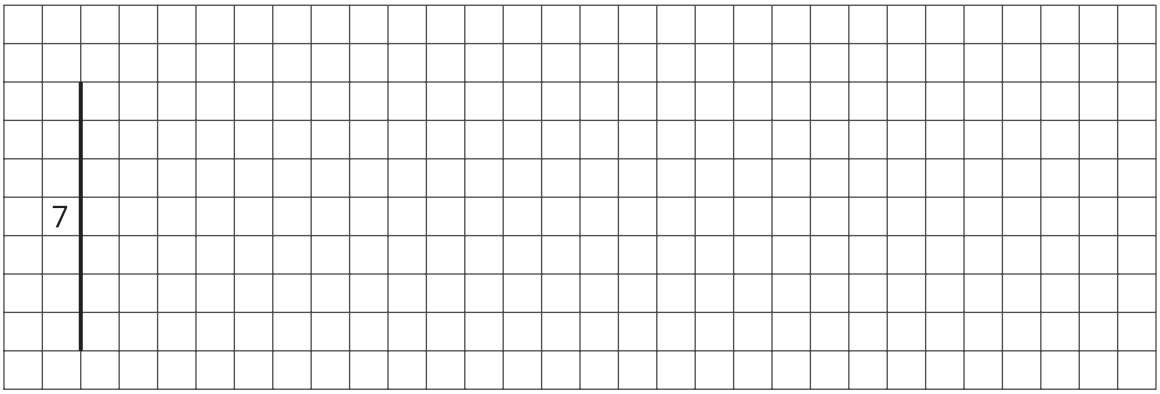

3. Find the answer to one of the questions you wrote. Explain or show your reasoning.

Activity 2

Elena's Mural

Elena uses 189 square tiles to create a rectangular mural for the art club. The mural is 7 tiles wide.

1. How many tiles long is Elena's mural? Explain or show your reasoning.

2. Write one or more equations that show how you solved this problem.
